The image shows a 49x16 grid for a Paint-by-Numbers puzzle. Each cell contains a number from 1 to 16, or 49, indicating which color to use for that cell. The numbers are color-coded: 1 is blue, 2 is red, 3 is green, 4 is purple, 5 is orange, 6 is brown, 7 is pink, 8 is light blue, 9 is light green, 10 is yellow, 11 is light purple, 12 is light blue, 13 is light green, 14 is yellow, 15 is light purple, and 16 is light blue. The grid is divided into four 12x16 quadrants by a 2x2 grid of larger squares. The numbers are distributed across the grid to form the puzzle's image.
