The image shows a 50x50 grid for a paint-by-number puzzle. The top row and the leftmost column contain numbers from 1 to 50. The numbers are color-coded: 1-10 are green, 11-20 are red, 21-30 are blue, 31-40 are purple, 41-50 are yellow. The rest of the grid is empty, with some numbers filled in at the top and left edges.
